QMT's Training Program Packages

When registering for your training program package: 50 percent of the package cost is required, with the remaining 50 percent due upon signing your enrollment agreement or the commencement date of the first course in your package. Once registered, your training package courses will not be substituted or combined with any other courses or offers. The U.S. Coast Guard is still in a transition period for many licenses regarding the STCW requirements, so course lengths, fees and course dates are subject to change without prior notice. *All training courses are approved for Veterans Training, except for the FCC MROP Radio Operator.*

"Sometimes less is more." Compare QMT's training package programs with other training school's tuition rates. QMT can't be beat for the highest quality training & affordable tuition rates.
